Our Learning Environment

A Place to Grow offers a nature-based learning environment in a warm, loving, and community-focused atmosphere. Our school is set on 28 wooded acres along the Oyster River and is co-located with Harmony Homes Assisted Living Facility. Our location allows us the flexibility to explore the curriculum while in nature and the ability to share experiences with our elders. A monthly theme-based curriculum is used to guide the daily activities throughout the center. Curriculum and learning opportunities for children are designed to meet the NH Early Learning Guidelines.

A Place to Grow offers my child the opportunity to learn in nature, but it's so much more than that! My child was well prepared for Kindergarten.

Meet Ms. Allison

Ms. Allison, our site director, looks forward to welcoming you to A Place to Grow at Harmony Homes. Allison has been with A Place to Grow since 2023. She has many years of experience working with children in Connecticut, where she grew up. Allison is deeply committed to her family and is a cornerstone of our community. Allison is developing her skills as a director and is earning her CDA and mentorship of A Place to Grow.

Our owner, Miss Jen, opened A Place to Grow in 2005 when her children were just one and three. She franchised A Place to Grow in 2021 and A Place to Grow at Harmony Place is our second corporate location. Jen manages all the franchise operations and keeps the business running smoothly from afar.

Tuition

AFFORDABILITY

Harmony Homes feels strongly about providing affordable on-site childcare for its employees and the greater Durham community. Tuition is a daily rate per child and is posted on our website.

NH Child Care Scholarships are accepted.
